NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1994

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Budgets and Budgetary Accounting

The Drainage District budget for 1994 was adopted on a cash basis of accounting which is not in accordance with GAAP, and budgetary comparisons presented in this report are on this non-GAAP budgetary basis. A reconciliation of actual and non-GAAP budgetary amounts is included in Note 2.

D. Cash Deposit with Financial Institutions

The Town and Country Drainage District's bank balances of deposits as of the balance sheet date are entirely insured by the Federal Deposit Insurance Corporation (FDIC).

NOTE 2 - RECONCILIATION OF ACTUAL TO BUDGETARY BASIS (CASH)

Reconciliation of Actual to Budgetary Basis (Cash)

The accompanying statement of revenues and expenditure - Budget and Actual, presents comparisons to legally adopted budgets with actual data on a budgetary basis. Because accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis in the excess (deficiency) of revenues and other sources of financial resources over expenditures for the year ended December 31, 1994 is presented below:

December 31, 1994

Excess of revenues and other sources of financial resources over expenditures (GAAP basis)	\$ 7,914.65
Adjustments:	
To adjust revenues for receivables	(2,732.38)
Excess of revenues and other sources of financial resources over expenditures and other uses of financial resources (budgetary basis)	\$ 5,182.27

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1996

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town & Country Drainage District No. 1 was created with ordinance No. 7219 by the Ouachita Parish Police Jury on August 19, 1988. The ordinance was adopted under the provisions of Part I, Chapter 93, Title 18 of the Louisiana Revised Statutes of 1958, as amended. The Drainage District is a component unit of the Ouachita Parish Police Jury and is governed by a board of commissioners that is appointed by the Police Jury.

The purpose of the Drainage District is to create and maintain a system for draining and reclaiming the undrained or partially drained overflowed lands in Ouachita Parish that are specified in the Charter.

The financial statements of the Drainage District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the governmental unit's accounting policies are described below.

A. Fund Accounting

The accounts of the Drainage District are organized on a fund basis. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Revenues are accounted for in the fund based upon the purpose for which spending activities are controlled. The fund presented in the financial statements was initially used to account for the cost of constructing drainage improvements in the Town and Country subdivision. Each property owner was assessed their proportionate share based on square footage. Currently, maintenance taxes are assessed the property owners as a percentage of the original assessment.

B. Basis of Accounting

The drainage district's records are maintained on a modified accrual basis of accounting utilizing the following practices in recording revenues and expenditures. Revenues are recognized when they are considered to be measurable and available. Property taxes were assessed on April 2, 1996 for 1996, and become a lien on the property when assessed. The taxes are collected throughout the year but are recognized as revenue on the assessment date.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Fixed assets - The Drainage District's fixed assets consist primarily of levees and canals, and management has elected not to report on "infra-structure" fixed assets, therefore, no fixed asset account group is included in the accompanying financial statements.
